

Выполнила: Галашина Анастасия

Задание 4 по модулю 5: Написать модуль ядра для своей версии ядра, который будет обмениваться информацией

с userspace через chardev.

Результаты выложить на github или др. общедоступный git.

```
user@user-TUF-GAMING-FX504GD-FX80GD:~/M5/task4$ sudo insmod chardev.ko
user@user-TUF-GAMING-FX504GD-FX80GD:~/M5/task4$ ls -l /dev/chardev
crw-rw-rw- 1 root root 505, 0 Sep  8 20:25 /dev/chardev
user@user-TUF-GAMING-FX504GD-FX80GD:~/M5/task4$ sudo dmesg | tail -n 5
